REASONS FOR ALLOWANCE

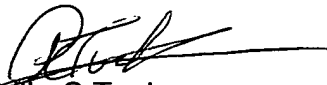

1. The following is an examiner's statement of reasons for allowance: Applicants amendment and arguments are deemed persuasive with respect to the applied prior art of record. In particular, Quaggia fails to teach the solid insulator within the gas-insulated high voltage installation as in the present claims. Luxa fails to teach the insulator supporting a conductor. Schulz fails to teach the fiber reinforcement, and such in combination with Quaggia is not seen to suggest the orientation of the fibers as now being claimed to one of ordinary skill in the art. The current claims are thus not anticipated or rendered obvious by the prior art of record..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
